SOLAR KITS / PRODUCT SELECTION GUIDE

Balcony Solar Kits

Solar modules, mounting and micro-inverter selection for compact spaces.

Application

Balconies, gardens and selected residential mounting locations.

Define the right specification

PARAMETER	WHAT TO CONFIRM
Installation area	Provide balcony dimensions, orientation and mounting surface.
Module configuration	Confirm module output, dimensions and quantity.
Mounting & loads	Agree bracket design, fixing method and site loads.
Micro-inverter	Confirm input limits, AC output and grid requirements.
Destination requirements	Confirm local installation rules and required documents.

Send us your project requirements

Include your destination market, application, quantity, target delivery and any available electrical or installation information. Request the exact model datasheet and documentation before confirming an order.

Document status: This is a product family selection resource. It does not specify an approved model, certified ratings, performance guarantees or warranty terms. These must be confirmed against the documentation for the selected product.
