SOLAR PANELS / PRODUCT SELECTION GUIDE

Custom All-Black RV Solar Panels

A clean all-black solar design for caravans, RVs and vehicle roof projects.

Application

Caravan and RV roofs, 4WD vehicles and project-specific marine installations.

Define the right specification

PARAMETER	WHAT TO CONFIRM
Target power & cell technology	Specify the target output and preferred cell technology.
Dimensions & roof layout	Provide the usable area, roof drawing and clearance limits.
Black finish & branding	Confirm the frame, cell and backsheet appearance; logo-free finish requested.
Frame & mounting design	Confirm brackets, fixing points, ventilation and roof loads.
Electrical values & cable	Confirm Voc, Isc, Vmp, Imp, cable length, connector and polarity.

Send us your project requirements

Include your destination market, application, quantity, target delivery and any available electrical or installation information. Request the exact model datasheet and documentation before confirming an order.

Document status: This is a product family selection resource. It does not specify an approved model, certified ratings, performance guarantees or warranty terms. These must be confirmed against the documentation for the selected product.
