SOLAR PANELS / PRODUCT SELECTION GUIDE

Custom Solar Panels

Solar modules shaped and sized around your product or project.

Application

Solar lighting, connected devices, marine equipment and custom off-grid products.

Define the right specification

PARAMETER	WHAT TO CONFIRM
Target power & voltage	State the desired output and operating voltage.
Dimensions & shape	Provide a dimensioned drawing or installation envelope.
Cell layout & finish	Discuss the cell format, appearance and surface materials.
Cable & connector	Specify cable length, exit position and connector type.
Application & quantity	Define integration, operating conditions, samples and volume.

Send us your project requirements

Include your destination market, application, quantity, target delivery and any available electrical or installation information. Request the exact model datasheet and documentation before confirming an order.

Document status: This is a product family selection resource. It does not specify an approved model, certified ratings, performance guarantees or warranty terms. These must be confirmed against the documentation for the selected product.
