SOLAR PANELS / PRODUCT SELECTION GUIDE

Flexible Solar Panels

Solar module selection for mobile and space-constrained installations.

Application

RV roofs and other mobile installations where the selected model is suitable.

Define the right specification

PARAMETER	WHAT TO CONFIRM
Rated power (Wp)	Select output for your charging requirement.
Dimensions & weight	Provide the available installation envelope.
Permitted curvature	Confirm the selected model's installation limits.
Mounting & ventilation	Follow the model-specific installation instructions.
Electrical values	Confirm Voc, Isc, Vmp and Imp before system design.

Send us your project requirements

Include your destination market, application, quantity, target delivery and any available electrical or installation information. Request the exact model datasheet and documentation before confirming an order.

Document status: This is a product family selection resource. It does not specify an approved model, certified ratings, performance guarantees or warranty terms. These must be confirmed against the documentation for the selected product.
